OBSERVATIONS

(Continued from Page One)

On the large leases, it is predicted, wells will be pumping 15 or 20 years hence.

THE part radio is playing in our national life is indicated by the following report: "Few persons need to be told how rapidly radio is interpenetrating every part of our daily life. A writer has contributed to June Century the most comprehensive article yet written."

"More than 2,500,000, perhaps as many as 3,000,000, radio sets have been manufactured and sold in the last three years in this country, with 560 broadcasting stations in operation in the United States, and 16,000 amateur transmitters send and receive by radio. "According to engineers of the Radio Corporation, 3000 manufacturers are turning out sets or parts of sets, 30 radio magazines have been started, 250 books have been written. Twelve million listeners constitute the present (spring of 1924) radio audience, and these spent \$175,000,000 on their hobby last year, giving employment in one way or another to 500,000 persons. There are twelve transoceanic stations, which communicate not only with Europe and Latin America, but with 2700 radio-equipped ships."

HARBOR CITY NEWS NOTES

The Japanese families who have children in the Harbor City school have presented \$356 to the school for the purchase of a moving picture machine. The donation was an expression of appreciation of the education their children are receiving in the local schools. The money was turned over to Mrs. Blanche E. Pautzer, principal. Both faculty and pupils appreciate the gift. There are about twenty Japanese pupils attending school here.

The school closed Friday, with 410 pupils in attendance. A number of children had left recently for the fruit districts. Most of the present faculty will return next term, and four new teachers will be added.

Scout Troop No. 1 held their meeting Thursday evening in the nearby hills. After a short business meeting, stories and songs were enjoyed. Oscar Greyson joined the troop and received his tenderfoot badge.

Don't forget the dance to be held Thursday evening in the Firemen's hall. Good music has been secured, and a jolly time is promised.

Saturday evening Mr. and Mrs. Charles Greig entertained at their home on 254th street and Governor avenue in honor of the graduating class. The rooms were prettily decorated with flowers. Games, both in-door and out, were played and music and songs were enjoyed until a late hour, when delicious refreshments were served. The guests included Lillian King, Bessie Willson, Leona Christenson, Alice Hakolo, Bertha Fairbanks, Jeanette Russell, Vera Greig, Courtland Myers, Glen Fritts, Arthur Cox, Clarence Aspittle, Leonard Wilson, and Margaret Greig.

The sewing class held their last meeting at the school year last Tuesday afternoon. There was a very good attendance. In appreciation of Mrs. Leifer's instructions and interest during the term, the class presented her with a case-service. Mrs. Chris Jones made the presentation speech, to which Mrs. Leifer replied in a few well chosen words. During the social hour that followed, ice cream, cake, cookies and lemonade were served.

The school closed Friday, with 410 pupils in attendance. A number of children had left recently for the fruit districts. Most of the present faculty will return next term, and four new teachers will be added.

GENERATOR TO PROVIDE LIGHT DURING FIESTA

Legion Overcomes Handicap Due to Shortage of Power

The possible necessity of cancelling the Torrance Fiesta and Exposition this year on account of the power and water shortage was averted when T. C. Carlton and members of the Legion committee succeeded in securing a portable generator to furnish lights for the event which is scheduled to take place July 15 to 19.

Commander Scott of the Legion announced today that application blanks for adjusted compensation will be on hand during Fiesta week at a Legion booth in the big tent. Members of the Legion familiar with the blanks will be on hand to assist veterans in making applications.

Adequate parking space for automobiles will be provided during the week. The Legion is reserving a large space near the Schultz, Peckham and Schultz building for this purpose.

Fred Palmer reports that space for the automobile show is being taken up rapidly.

This year the commercial exhibits and automobile show will be held in the same large tent. Plans to hold a boxing and wrestling show as a special feature of the Fiesta are being made. Members of the committee will announce later whether such a feature will be included. The Legionnaires are determined that the boxing and wrestling show shall be of the highest class, else the event will not be scheduled.

The Legion Post at San Pedro has requested that a special San Pedro night be arranged and promise to attend 100 per cent strong.

Merchants to Give Away Ford Tickets To Assist Legion

Co-operating with the Legion committee, seven Torrance merchants have agreed to give free with every cash purchase of \$5 made at their stores, one ticket entitling the bearer to a 50-cent "interest" in the Ford coupe which will be given away by the Legion during the Torrance Fiesta and Exposition July 15 to 19. The names of the merchants follow: John Fess, grocer; George Farr, and Judson G. K. Smith, jewelers; I. G. Anderson, general merchandise; A. E. Killey, men's furnishings; and C. A. Fox-Stone, hardware, M. M. Black, Army and Navy Store. Names of other co-operating merchants will be announced later.

Miss Doris Millburne of Andree avenue was a recent guest of Miss Laura Gibbs of Redondo Beach.

T. J. Wilkes of West Carson street enjoyed the "Covered Wagon" at Grauman's, Sunday evening.

Born, Tuesday June 24, to Mr. and Mrs. Harry G. Emsath of Portola avenue, a daughter.

ROLLED EFFECT USED ON PLEATED FROCK AND CAPE

The popular rolling continues to sway lady's choice of clothes. The afternoon costume shown, however, has a more unique trimming touch.

WOMAN OPPOSES MRS. UPTON FOR CONGRESS SEAT

Miss Phoebe Sutcliffe.

Women probably will fight it out for the congressional seat from the nineteenth Ohio district, Mrs. Harriet Taylor Upton, who resigned as vice chairman of the Republican national committee to run, will be opposed, it now appears, by Miss Phoebe Sutcliffe of Warren, prominent in Democratic organizations. Miss Sutcliffe is widely known as an educator.

OUCH!

The young lieutenant had but newly joined the regiment, and as this was his first experience of military life he naturally felt rather awkward and afraid of doing the wrong thing. This was particularly the case in the mess, where he was almost afraid to move for fear of acting contrary to military etiquette.

At last the major, rough but kindly at heart, took pity on him and, slapping him on the back, said joyfully:

"I suppose it's the old, old story—what? The fool of the family sent into the army?"

"Oh, no, sir," replied the young man; "things have quite altered since your day."

**FIVE NEW WELLS PRODUCING**

Five new oil wells, with an aggregate flush production of 3255 barrels a day, have been put on production within the past few days in the field here.

Leading the list are the Sentinel Oil Company's Joughin No. 8, the Chandor-Canfield Midway Oil Company's Torrance No. 48. Each of these wells is making 1100 barrels a day.

The new Joughin producer is south of E. J. Miley's lease and bears out the contention published in these columns recently that the most productive formation in the eastern part of the field is more southerly than was previously anticipated. The Joughin well is making 22 gravity oil, the highest gravity yet obtained from the lease by the Sentinel. It was completed at 3825 feet.

The new C. C. M. O. producer is a second tier well north of Redondo road opposite the Standard Oil property. It was drilled to 3725 feet.

In Marble Fee No. 16, completed at 3720 feet, the Standard Oil Company has a 525-barrel producer, just south of Redondo road. The oil from this hole tests 25 degrees.

Chandor-Canfield Sunday completed Torrance No. 57 at 3728 feet for an initial yield of 800 barrels a day. This also is a second tier well north of Redondo road on the Torrance lease.

The Superior Oil Company added a 600-barrel producer to its list when Torrance No. 27 on the Joughin lease was brought in. It was completed at 3820 feet.

**Standard Oil Co. To Deepen Wells**

Having secured 525 barrels a day from Marble Fee No. 16 at 3720 feet, the Standard Oil Company will deepen Marble Fee No. 16 from 3675 to about 3725 feet. No. 11 is now pumping at a rate of about 250 barrels a day. The deepening job is expected to increase the yield by several hundred barrels.

The company will also deepen Ellwood No. 1 again. The producer of the western extension is now pumping about 150 barrels a day, only 40 barrels of which is oil. The Ellwood was originally drilled to 3630 feet and then was deepened to 3744 feet. How far down the company will make hole on this deepening job, has not been announced.

**HOTEL ERWIN**

Fred Hansen of Los Angeles, employed with the C. C. Julian Company, is a newcomer here.

Mr. and Mrs. Curtis H. Mills of Anaheim are making their home at the Erwin. Mr. Mills is employed in the local oil fields.

A. Pethausen, formerly with the Ferncroft, has returned to Los Angeles.

Raymond Mason, a guest here for eight months, is now located at the Lamm Hotel, Los Angeles.

Jack Ault, formerly with the Union Tool Company, has opened a service station in Los Angeles.

W. B. Bray, employed with the Petroleum Securities Company, is visiting his sister at El Monte.

Lewis Roos, here for four months during the construction of the Woolbestos plant, has entered the concrete business in Long Beach.

Frank T. Stuenkel and M. J. O. Malery, of Los Angeles, arrived at the Erwin recently and are employed at the Ferncroft.

**WAR WORKER IS HEROINE OF STORY**

**Mrs. Gertrude Ely.**

A war worker in France during the world war and the original of the heroine of a popular novel is Miss Gertrude Ely, of Bryn Mawr, Pa. The novel was written by her sister, Mrs. Charles Tiffany, of New York City, and is entitled, "The Journal of a Mud House," being the adventures of two women in New Mexico. Miss Ely is a regional worker for the National League of Women Voters.

**PIED PIPER HEALTH SHOES**

Endorsed by the National Physical Board of the Young Women's Christian Association

Many kinds of shoes are made to look like these, but parents shouldn't be misled. (Be sure to look for the Pied Piper trademark on each shoe.) The wrong kind of shoes often makes children the victims of lifelong suffering. No shoes can be made as comfortable as Pied Pipers, for none contain this patented health construction.

So guard the future development of your children with these shoes. They protect the delicate bones of the feet and correctly support all the tender muscles. Pied Piper Health Shoes produce 100% foot comfort.

**PIED PIPER**

Every Toe will Feel At Home in Pied Piper Shoes

What Every Mother and Father Should Know:

In one school alone a committee of doctors upon investigation made this startling discovery: 155 children were faulty shod; 125 had weak feet; 74 had sliver feet; 60 had corns, bunions and callouses; only 7 had excellent feet.

All of the above distortions and foot deformities will never occur in the feet of YOUR children if you come to this store and have them fitted with Pied Piper Health Shoes. It is a parental duty to insist upon Pied Pipers.
